U.S. DEPARTMENT OF ENERGY | Energy Efficiency & Renewable Energy

# Wind for Schools

Wind Powering America is a nationwide initiative to educate, engage, and enable critical stakeholders to make informed decisions about how wind energy contributes to the U.S. electricity supply.

**Wind Powering America sponsors the Wind for Schools project to raise awareness in rural America about wind energy's benefits while increasing the wind knowledge base of future leaders of our communities, states, and nation.**

Visit the Wind Powering America website to find information about:

- The Wind for Schools project
- School wind project locations across the United States
- Higher education and continuing education wind programs
- Teaching materials.
