

Dry Lake wind project in Navajo County, developed by Iberdrola Renewables, energy purchased by SRP

Utility-scale wind projects are not subject to state review, thus counties are on the front line for evaluating projects. This workshop will provide an overview of key siting, permitting, wildlife, and archeology and anthropology considerations for wind energy development to help county leaders, staff and other stakeholders develop policies necessary to effectively permit wind energy facilities.

AGENDA

9:30 – 10:00 a.m.

Welcome and Setting the Stage

Arizona's energy outlook and the part wind may play in meeting our energy needs.

10:00 – 11:00 a.m.

Developers' Perspective on Wind Ordinances

Wind developers will provide the ten top things they believe make for a good county wind ordinance.

11:15 a.m. -12:30 p.m.

Critical Wildlife Issues

Discussion of wildlife concerns for wind development and the studies that should be required by a county.

12:30 – 1:45 p.m.

Lunch and Time with Experts

1:45 – 2:15 p.m.

Anthropology and Archeology

This panel will discuss what counties should look for and questions to ask.

2:15 – 3:30 p.m.

Pulling the Pieces Together - Developing a Wind Ordinance

Review of the important features of wind ordinances from other jurisdictions.

Forum Format

The forum will provide extensive opportunity for question and answers with topic experts. Each panel will provide for a content expert to make short opening comments. The panel member(s) will then be asked a series of prepared questions from counties. This will be followed by a question and answer session from the audience.

Permitting Wind Development What Counties Need to Know

June 15, 2010 - 9:30 a.m. – 3:30 p.m.
Northern Arizona University
High Country Conference Center
201 West Butler Avenue. Flagstaff, AZ 86001
